Year 1 Maths
Money

Can you recognise these coins and notes?

Ask an adult to help you find these coins/notes in your house. Can you name them all and put them in order according to their value?

Problem solving and reasoning

Dora says:

All coins are round.

Do you agree with Dora?

Justify your answer.

Alex has 2 silver coins.

Teddy has 5 bronze coins.

Amir has 1 silver coin.

They all have the same amount of money.

Which coins do they each have?

Collect or draw the coins to prove it.

The tooth fairy left some money for two children.

Jack has 50 pence. Mo has one pound.

Jack thinks he has more money because his coin is physically bigger.

Explain why Jack is wrong.
