

Do Which is hotter?

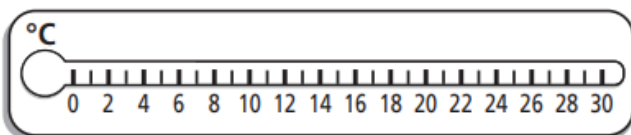

Do Which is colder?

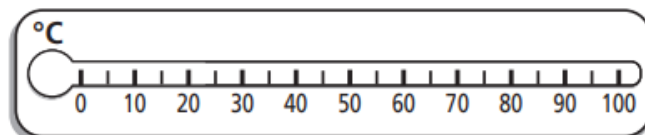

Do

Show a temperature that is hotter than 18°.

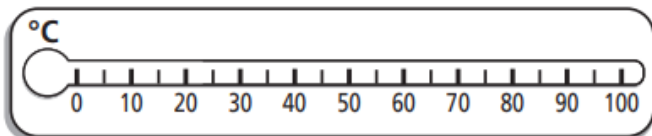

Do

Show a temperature that is colder than 25°.

Do Show a temperature that is hotter than 30° but cooler than 80°.

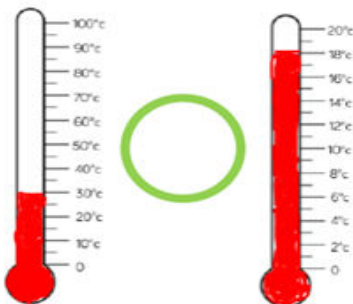

Do

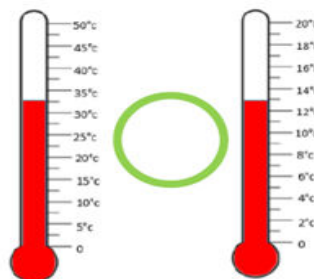

Put these temperatures in order from coldest to hottest.

40° 14° 41° 4°

Do Use <, > or =.

Do Use <, > or =.

Think

True or false.

51° is a hotter temperature than 15°.

Think

Convince me that I can show a temperature cooler than 75°.
